

UCN - UNIVERSITY COLLEGE
OF NORTHERN DENMARK

Ageing in the multi - cultural society

A two week interprofessional course

Ageing in the multi - cultural society

A two week interprofessional course at University College Northern Denmark

Theme

The overall theme is Ageing in the multi - cultural society. The number of older people worldwide is increasing placing new demands on skills of future health professionals and the necessity to work across professions, sectors and borders.

Health professionals are likely to work with older people that are originally from other cultures. Therefore it is important that the competences of the health professionals meet the challenges of providing interventions and services in the growing multi-cultural society.

Content

- The health professional as collaborator, communicator and professional
- The cultural meeting and intercultural communication
- The ethical dimension
- Integrated health care from hospital to home for
- Perspectives on different ethnic, cultural and social backgrounds
- Interventions in rehabilitation and health promotion
- Healthy aging
- Network collaboration
